OSMAR ANDRES LOPEZ PINEDA

Mechatronic Engineer

Software Engineer | Graphic/CAD Designer

LinkedIn

PROFESSIONAL PROFILE

Mechatronics Engineer with experience in test engineering, project management, software development, CAD design, robotics, and digital content creation. Skilled in failure analysis, automation, and process optimization, with a strong background in programming, server hardware testing, and design. Recognized for adaptability across diverse fields, combining technical expertise with leadership, teamwork, and creative problem-solving.

Technical: Test execution, server hardware management (Amazon, Oracle, Nvidia, Microsoft), electronics, Bash scripting, Linux/Windows (administration), HTML/CSS, JavaScript , C++, Python, C#, Unity, MySQL, Visual Studio.
Design & CAD: 3D modeling (AutoCAD, SolidWorks, Blender, SketchUp), 2D graphic design (Photoshop, Illustrator, CorelDraw, Canva).
Administrative Tools: Microsoft Office (Word, Excel, PowerPoint, Outlook, Teams).
Soft Skills: Leadership, teamwork, problem-solving, communication, adaptability, time management, creativity.

EDUCACIÓN

2025 - 2025 — **Skilling Center in ChatGPT – Prompt Engineering**
Tecmilenio University – Online.

2018 - 2024 — **Bachelor's in Mechatronics Engineering**
University Centro Universitario de los Valles (UDG) – Ameca, Jalisco, México.

2015 - 2018 — **High School in Business Administration**
Preparatoria Regional de Tequila (UDG) – Tequila, Jalisco | 2018

Professional Experience

October 2024 – Present
San Pedro Tlaquepaque, Jalisco, México.

Foxconn
Position held: Test Engineer.
Task perfomed: Performed functional testing and failure analysis on server hardware (Amazon, Oracle, Nvidia, Microsoft). Developed Bash scripts to automate processes and manage system logs. Coordinated training sessions, documentation, and team organization. Developed expertise in Linux systems, validation, and troubleshooting.

February 2025 – August 2025
Tequila**, Jalisco, México.**

Freelance
Position held: Independent Marketing Producer.
Task perfomed: Designed advertising materials, branding assets, and logos. Applied graphic design principles, color theory, audience analysis, segmentation, and marketing strategies. Delivered creative results under pressure and within tight deadlines.

June 2024 – January 2025
Zapopan, Jalisco, México.

Ase Power
Position held: Project Engineer.
Task perfomed: Designed and modeled electrical distribution plans using AutoCAD. Assisted in the installation of a 15MW turbo generator in Tamaulipas. Produced 3D models and isometric structures for industrial applications. Enhanced skills in project planning, resource management, and mechanical design.

February 2022 – May 2024
Ameca, Jalisco, México.

Universidad de Guadalajara
Position held: Software Developer.
Task perfomed: Developed augmented reality applications using Unity and C#. Built APIs with Python and MySQL, created tools for server log and file management. Managed project workflows, activity tracking, and time control.

2010 – May 2024
Tequila, Jalisco, México.

Food Business
Position held: Customer Service & Cashier.
Task perfomed: Managed inventory, logistics, and digital sales records.

Highlighted Projects

Programming: Full-stack e-commerce store, portfolio website with JavaScript/HTML/CSS, AR tools with Unity/C#, Python & MySQL automation.
Robotics & Electronics: Animatronic robot (1.5m), robotic arm with microcontrollers, digital clock using logic gates.
3D Design & Printing: Custom figurines, architectural models, SolidWorks simulations.
Graphic Design: Logos, branding, advertising materials, academic plans & illustrations.
